Beaches

Nearest Beaches to St. Davids

Caerfai

Caerfai is the nearest beach to St. Davids and is popular for bathers, although at high tide the beach is completely covered with only a small bit of sand and boulders. A feature of the beach is the unusual purple sandstone along the cliffs, which was used to build St Davids Cathedral. Limited parking is available at the top of the path to the beach. To get to Caerfai turn right out of the drive then left onto Glasfryn Lane. At the top go straight over the roundabout onto Caerfai Road and follow to the end of the road. Its 5 mins by car, 20 minutes by foot. No lifeguards, and dogs allowed all year round.

Whitesands

This is the other nearby beach and is consistently rated one of Wales' very best beaches. It's a large sandy beach in a magnificent setting. Whitesands is well known for its views, glorious sunsets, crystal clear water and surf. If you can draw yourself away from the beach, there are some stunning walks with memorable views over the St. Davids Peninsula and Ramsey Island. There is a large car park right on the beach which in the summer often has a long queue to get into it. Its £5 per car. There is a café (open in the evenings too during the summer) and toilets in the car park. Whitesands is a 10 minute car ride away, or you can catch the Celtic Coastal Bus by the rugby club, walk (35min) or cycle (15min). Surf and body boards are available to hire at the beach. Lifeguards on duty in season and dog free in the summer months.

Beaches South of St. Davids

Solva Beach

Solva is a beautiful, rocky inlet providing a sheltered, safe anchorage for yachts and boats. Not surprisingly this fine natural harbour has given the village a long seafaring tradition. It doesn't have a particularly good beach – at low tide there is a small stretch of sand, but the picturesque little harbour provides a pleasant afternoon for watching the small boats coming and going. Solva is just east of St Davids on the A487 Haverfordwest Road.

You can walk along the Coast Path to get to Solva as well. It's a great walk and will take you about 2.5 hours. Head down to the Coast at Caerfai and turn left to pick up the Coast Path. You can then take the T11 bus or the Puffin Shuttle back to St Davids from Solva from outside the Pottery Shop half way down the Main Street.

The Snug Guest Information

Newgale

It's the ideal location for watersports. There is always plenty of space on the long, 2 mile stretch of flat sand whilst the Atlantic Ocean rollers ensure some exciting surf, it is an ideal beach for the young and not so expert. The beach is patrolled by life

guards during the summer holidays. There is a café at both ends of the beach and a pub in the middle, 'The Duke of Edinburgh' which serves decent, basic, pub food. There is ample parking with seasonal charges and dogs are welcome all year round. It's easy to find, lying midway between St. Davids and Haverfordwest on the main A487 road. You can hire Surf Boards and Canoes from **Newsurf**, just by the pub.

Druidstone Haven

Druidstone Haven can be found by following the coastal road between Nolton Haven and Broad Haven. It's a well-hidden long, sandy beach enclosed on three sides by steep cliffs. Access to the beach is by 2 footpaths and bathers should take care as there are strong currents. There are no amenities on the beach, but the nearby **Druidstone Hotel**, a unique experience! The hotel has a 'uber' casual feel, with a popular bar and a great spot for lunch, perched right on the top of the cliffs with a stunning view.

www.druidstone.co.uk

Broadhaven

Broad Haven (west) is a large, magnificent expanse of sand, which runs the entire length of Broad Haven Village. It is a regular Blue Flag holder. It is a favourite with bathers and watersports enthusiasts with pubs, shops, restaurant, cafe etc. It's also great for rock pooling with the kids.

Broad Haven's westerly facing sandy beach offers excellent conditions for kite-surfing, kite-buggying, windsurfing and surfing. For surfing Broad Haven can offer some protection from SW winds.

Broad Haven is one of the most popular windsurfing beaches in this area and home to **Haven Sports** watersports shop.

There is a car park at the southern end of the beach opposite Haven Sports and a larger car park a small distance from the beach at the North End of the bay. To find Broad Haven follow the road to Haverfordwest and turn off on the B4341.

Little Haven

A picturesque old fishing village with steep streets that descend to a sandy beach. The beach itself is popular with swimmers and divers in the summer months. At low tide there is a pleasant walk along the beach to Broad Haven with numerous caves and rockpools to explore. There is a pay and display car park close to the beach and three welcoming pubs. The best one being 'The Swan'

www.theswanlittlehaven.co.uk. To find Little Haven follow the Coast Road South from Broad Haven.

The Snug Guest Information

Barafundle Bay

A beautiful bay of golden sands and turquoise blue waters further down South of the county. East facing and well sheltered from the prevailing winds, this is an ideal hideaway spot. To find it, turn off from the minor road between Stackpole and Freshwater East where a lane leads to a car park at Stackpole Quay. There are toilets and a great National Trust café here **The Boat House Tea Rooms** serving lunches,

cream teas and ice creams and cakes. The beach is a 1km walk along the Coast Path. There is a steep descent from the path down to the beach.

Dale

The sheltered bay of Dale is perfect for watersports – home to yachting, windsurfing and a watersports centre. Dale has a shingle beach with some sand at low tide and an attractive seafront, all overlooked by Dale Castle on the hill above. Facilities in the unspoilt village are good. There is a great pub **The Griffin** which serves locally caught fish and is a great spot for watching the world go by. www.griffinindale.co.uk. Head out on a boat for a couple of hours and try your hand at a spot of fishing with www.broadsidedale.co.uk. Boats leave from the jetty.

Car parking is plentiful in the purpose-built car park just across the road from the beach. To find Dale head S.West on the B4327 from Haverfordwest.

West Dale is a stunning, secluded cove which is accessed via footpath through Dale. The sand and shingle beach can be dangerous to swimmers because of undertows and unpredictable currents and hidden rocks.

Tenby

Its Pembrokeshire's main holiday resort and its beaches reflect this. They provide plenty of facilities, are winners of various environmental awards and are often quite busy. The resort of Tenby consists of 4 beaches: North Beach, Harbour Beach, Castle Beach and South Beach.

A trip to Tenby is great fun and there is plenty to see and do.
www.tenbyvisitorguide.co.uk

Fish and Chips at Fecci's is a must – it's a real institution just off Frog Street. They have an ice cream parlour nearby too.

A Trip to Caldey Island is lovely too. A fleet of boats run from Tenby Harbour every day except Sunday through the Summer Months, weather permitting. Tickets can be bought from the relevant booth on the harbour. For many centuries, Caldey Island has been inhabited by various orders of monks and is currently owned by the Cistercian Order, living in the beautiful Abbey, found just a few minutes walk from the landing stage. On the far side of the island you can walk to the lighthouse and enjoy the spectacular views. Also look out for the Chocolate Factory and Abbey Gift Shop selling perfume and shortbread in the Monastery.

Beaches North of St. Davids

Aberiddy

Once a 'Blue' sandy beach with dramatic cliffs, the beach has suffered recently from winter storm damage and has lost a lot of the beach, however the striking Blue Lagoon – once a slate quarry – is walking distance from the carpark/beach. The Blue Lagoon is very popular swimming and 'jumping' spot from the old quarry jetties.

One of Pembrokeshire's most beautiful beaches, Traethllyfn, lies just one mile north of Aberiddy and a further half mile coastal path walk brings you to Porthgain. Here you'll find 'The Shed' – an excellent fish restaurant, and a pub, 'The Sloop' which has a nice outside seating area.

Aberbach and Abermawr

Both are little known beaches. Abermawr is a large, impressive bay with a pebble bank created by a huge storm in 1859. At low tide the beach is sandy. Surfing can be good here and is never crowded but the strong currents can be hazardous. Abermawr beach is well signposted from the cross roads on the A487 about a mile N.E of Mathry. The road is narrow and parking is limited. There is a short path to the beach from the roadside.

Aberbach beach is a small beach next to Abermawr and is a 5 minute walk to get to it from the road or 10 minutes around the cliffs from Abermawr. Although mainly pebbles there is sand at low tide. If you follow the track up inland from the beach you will come to some great wood carvings that are fun for kids to spot – there are lots of different animals and things hidden in the trees and by the path. Takes about 10 minutes walk up from the beach.

You will come out of the wooded walk by a cottage. If you fancy a refreshment stop head to Melin Tregwynt for a look at the beautiful woven blankets and cushions and visit their fantastic café for lunches, snacks, tea and cake. To get to Melin Tregwynt walk by the cottage and turn left, follow this road all the way round and over a little bridge. You'll see the car park for Melin Tregwynt. You could always park your car here and walk to the beaches from here.

Cwm-yr-Eglwys

A petite, eye-catching cove popular with families. Overlooking the picturesque shingle and pebble beach are the remains of the 12th Century Church of St. Brynach's which was destroyed during a fierce storm in 1859. To find Cwm-yr-Eglwys follow the narrow, twisting road off the A487 just to the east of Dinas Cross. There is limited parking in a private car park. Being at the northern base of Dinas Island, Cwm yr Eglwys is a great place to join the Pembrokeshire coastal path. From Cwm yr Eglwys, you can walk round Dinas Island to Pwllgwaelod (another beautiful Pembrokeshire cove) where you can enjoy a well-earned rest in The Old Sailors Pub and Restaurant before cutting back through the valley to Cwm yr Eglwys. The whole walk is just over 3 miles.

Activities

Walking the Coast Path and local area

St. Davids is surrounded by wonderful cliff walking with stunning views. A **North Pembrokeshire OS Map** is in the cottage. Please be sure to leave the map for the next guests to enjoy but by all means take it out and about with you during your stay.

The **Coastal Bus Service** is a great way to get around without taking the car, and to get back to St Davids if you are heading out on a longer walk. Timetables are enclosed. The Celtic Coaster and Strumble Shuttle do a 'hail' service and will stop if flagged down and it is in a safe place for them to pull in.

Cycling

The OS map can help with local rides and the Sustrans No. 4 route will take you north and east along the coast from here. For longer rides do ask Sean who will be more than happy to point you in the right direction or even take you out on his favourite rides – with tea stops included!

Horseriding

By far the best horseriding stable is that at Nolten Haven – **Notlon Stables** T. 01437 710360 www.noltonstables.com They run beach rides down to the beaches of Nolton Haven and Druidstone for 1.5hr or 2.5hr rides. They have a large selection of horses and ponies and take pride in their ability to cater for young children, through to the more experienced rider.

Other boat trips that are worthwhile are **Caldey Island** from Tenby as mentioned in the Beaches section previously, or over to **Skomer Island** to see the Puffins.

Golf Courses

Whitesands

There is a 9 hole course at Whitesands Beach with spectacular panoramic views over St. David's Head and Whitesands Bay. The course is dry and playable all year with fast greens to test the best. This is one of the most beautiful courses in the area and the course is in superb condition all year round thanks to the dune grass that never grows. Visitors are welcome on a pay and play basis. Adjacent to the bell tower are the main stone steps leading to the cathedral – known as “the thirty-nine steps” easy going down (not quite so easy coming back up). The area known as the Cathedral Close is really well maintained by a team of local grounds men, just walking through the Cathedral Close there are a really interesting buildings, gardens and meadows etc to enjoy.

The Bishops Palace

Now a ruin, the Bishop's Palace at St David's still retains signs of its former grandeur. Currently in the hands of CADW the remains are utilised now as an open-air theatre as well as a visitor attraction.

Built during the 1300's the ruins are full of human heads carved from stone and there is a huge wheel window in the eastern gable which is well worth the visit alone. The whole palace ruin musters up a sense of how spectacular this building must have been during its heyday with huge banquets being held in the main hall and royalty and other well to do guest entering through the majestic porch. The Palace is open daily and there is an admission charge. Facilities include disabled access, baby changing facilities, toilets, a gift shop and exhibitions.

St. Non's Chapel and Well

Situated in a field above the Coastal Path are the ruins of St Non's Chapel- now barely more than foundations it does house a stone slab with a simple cross and circle carved into it. The Chapel is believed to be the birthplace of St David some 1500 years ago and is built inside the site of a Neolithic stone circle. Strangely the

building has been constructed with a north-south orientation as opposed to the traditional east-west layout of most religious buildings.

Some 500 yards from the Chapel at the top entrance to the field is St Non's Well. Believed to have healing powers like many medicinal wells in the area, it probably has its roots in Celtic (Iron Age) times and was re-branded so to speak when Christian beliefs were becoming predominant in the area.

Oriel y Parc Gallery and Visitor Centre

Oriel y Parc includes a Visitor Centre, Artist in Residence Studio, a Discovery Room which hosts family friendly art and nature activities, a Tower which hosts local arts exhibitions and community run classes, and a café (great spot for lunch and breakfast), and not forgetting a shop to buy local crafts/souvenirs and other goodies. There is also a Class A Landscape Gallery, which was built to house works bequeathed to the people of Wales by Graham Sutherland. This is **free** entry.

Days out

Newport

Newport is an idyllic little town on Pembrokeshire's north coast – keep on driving past Fishguard and the A487 will take you there. It's some 40/45 minutes from St. Davids.

The Welsh name for Newport is Trefdraeth. Translated, this means 'town by the beach'. The beach in question is Newport Sands, a mile long, wide, flat, dune-backed beach. Newport is a town of two halves, the streets around Market Street and the area around the Parrog. Market Street was once wide enough to accommodate market stalls but has since been narrowed with the enclosure of front gardens at many of the properties. Newport's commercial hub can be found in the surrounding streets, where you can find interesting shops, cafés, pubs and restaurants.

There are a number of good pubs in Newport including The Castle Inn, and The Golden Lion. They all provide food at lunchtime and in the evening. Lou Lou's Café on Market Street is also another good lunch spot. There is also an excellent restaurant - Llys Meddyg, about £40 per head so more of a special treat place even though it is full of rustic charm. www.llysmeddyg.com

Pentre Ifan – Burial Chamber

The most popular megalithic site in Wales. Pentre Ifan is a splendid burial chamber with a huge capstone delicately poised on 3 uprights.

Pentre Ifan means Ivan's Village and the monument dates back to about 3500BC. It stands on the slopes of a ridge commanding extensive views over the Nevern Valley. The capstone weights over 16 tons and is 5m long and 2.4m off the ground.

Cilgerran Castle

Cilgerran in Pembrokeshire boasts a picturesque ruined castle overlooking the Tefi George which it was built along. The castle sits on a rocky promontory above the River Teifi. The original castle is believed to have been like many others, an earth and timber castle which was probably constructed in around 1100, this castle was eventually strengthened and improved, by the Earl of Pembroke the masonry which exists today is dated around 13th century. The castle is now a National Trust property, in the guardianship of Cadw: Welsh Historic Monuments Executive Agency.

The castle is largely a ruin, though two substantial towers remain which give an excellent idea of the scale of the building. The castle can be seen from several vantage points along the river. From the castle there are pleasant walks down to the River Teifi and into the village of Cilgerran.

Why not make a day of your visit and head to lunch at **Hammet House**. It's about a 15-minute drive away from Cilgerran.
