Beaches

Nearest Beaches to St. Davids

Caerfai

Caerfai is the nearest beach to St. Davids and is popular. Although at high tide there is very little beach, often only boulders. A feature of the beach is the unusual purple sandstone along the cliffs, which was used to build St Davids Cathedral. There is steep path down to the beach and large boulders to walk over to the sand. Limited parking is available at the top of the path to the beach. To get to Caerfai turn right

out of the drive then left onto Glasfryn Road. At the top go straight over the mini roundabout onto Caerfai Road and follow to the end of the road. It's 5 mins by car, 20 minutes by foot. No lifeguards, and dogs allowed all year round.

Whitesands

This is the other nearby beach and is consistently rated one of Wales' very best beaches. It's a large sandy beach in a magnificent setting. Whitesands is well known for its views, glorious sunsets, crystal clear water and surf. If you can draw yourself away from the beach, there are some stunning walks with memorable views over the St. Davids Peninsula and Ramsey Island. There is a large car park right on the beach which in the summer often has a long queue to get into it. It's £6 per car / £4 after 3pm. There is a café (open in the evenings too during the summer) and toilets in the car park. Whitesands is a 10 minute drive away, or you can catch the Celtic Coastal Bus by the rugby club, walk (35min) or cycle (15min). Surf and body boards are available to hire at the beach. Lifeguards on duty in season and dog free in the summer months.

Beaches South of St. Davids

Solva Harbour

Solva is a beautiful, rocky inlet providing a sheltered harbour. Not surprisingly this fine natural harbour has given the village a long seafaring tradition. Great for a stroll along the quay, where you'll find people crabbing on a sunny day, swimming and for the more adventurous jumping in off the harbour wall!

You can walk along the Coast Path to get to Solva as well. It's a great walk and will take you about 2 - 2.5 hours. Head down to the Coast at Caerfai and turn left to pick up the Coast Path. You can then take the T11 bus back to St Davids from Solva from outside the Pottery Shop half way down the Main Street.

Newgale

It's the ideal location for watersports. There is always plenty of space on the long, 2 mile stretch of flat sand whilst the Atlantic Ocean rollers ensure some exciting surf, it is an ideal beach for the young and not so expert. The beach is patrolled by life guards during the summer holidays. There is ample parking with seasonal charges and dogs are welcome all year round. It's easy to find, lying midway between St. Davids and Haverfordwest on the main A487 road. You can hire Surf Boards etc from New Surf surf shop.

Druidstone Haven

Druidstone Haven can be found by following the coastal road between Nolton Haven and Broad Haven. It's a well-hidden long, sandy beach enclosed on three sides by steep cliffs. Access to the beach is by 2 footpaths and bathers should take care as there are strong currents. There are no amenities on the beach, but the nearby **Druidstone Hotel**, a unique experience! The hotel has a 'uber' casual feel, with a popular bar and a great spot for lunch, perched right on the top of the cliffs with a stunning view. www.druidstone.co.uk

Broadhaven

Broad Haven (west) is a large, magnificent expanse of sand, which runs the entire length of Broad Haven Village. It is a regular Blue Flag holder. It is a favourite with

bathers and watersports enthusiasts with pubs, shops, restaurants, cafes etc. It's also great for rock pooling with the kids. Broad Haven's westerly facing sandy beach offers excellent conditions for kite-surfing, kite-buggying, windsurfing and surfing.

There is a car park at the southern end of the beach opposite Haven Sports and a larger car park a small distance from the beach at the North End of the bay. To find Broad Haven follow the road to Haverfordwest and turn off on the B4341.

Little Haven

A picturesque old fishing village with steep streets that descend to a sandy beach. The beach itself is popular with swimmers and divers in the summer months. At low tide there is a pleasant walk along the beach to Broad Haven with numerous caves and rockpools to explore. There is a pay and display car park close to the beach and some local pubs.

Barafundle Bay

A beautiful bay of golden sands and turquoise blue waters further down South of the county. East facing and well sheltered from the prevailing winds, this is an ideal hideaway spot. To find it, turn off from the minor road between Stackpole and Freshwater East where a lane leads to a car park at Stackpole Quay. There are toilets and a great National Trust café here **The Boat House Tea Rooms** serving lunches, cream teas and ice creams and cakes. The beach is a 1km walk along the Coast Path. There is a steep descent from the path down to the beach.

Dale

The sheltered bay of Dale is perfect for watersports – home to yachting, windsurfing and a watersports centre. Dale has a shingle beach with some sand at low tide and an attractive seafront, all overlooked by Dale Castle on the hill above. Facilities in the unspoilt village are good. There is a great pub **The Griffin** which serves locally caught fish and is a great spot for watching the world go by.

Car parking is plentiful in the purpose-built car park just across the road from the beach. To find Dale head S.West on the B4327 from Haverfordwest. West Dale is a stunning, secluded cove which is accessed via footpath through Dale The sand and shingle beach can be dangerous to swimmers because of undertows and unpredictable currents and hidden rocks.

Tenby

Its Pembrokeshire's main holiday resort and its beaches reflect this. They provide plenty of facilities, are winners of various environmental awards and are often quite busy. The resort of Tenby consists of 4 beaches: North Beach, Harbour Beach, Castle Beach and South Beach. A trip to Tenby is great fun and there is plenty to see and do. www.tenbyvisitorguide.co.uk

Fish and Chips at Fecci's is a must – it's a real institution just off Frog Street. They have an ice cream parlour nearby too.

A Trip to Caldey Island is lovely too. Boats run regularly from Tenby Harbour Easter to October, weather permitting. Tickets can be bought from the booth at the top of the harbour. For many centuries, Caldey Island has been inhabited by various orders of monks and is currently owned by the Cistercian Order, living in the beautiful Abbey, found just a few minutes walk from the landing stage. On the far side of the island you can walk to the lighthouse and enjoy the spectacular views. Also look out for the Chocolate Factory and Abbey Gift Shop selling perfume and shortbread in the Monastery. <u>www.caldey-island.co.uk</u>

Beaches North of St. Davids

Aberiddy

Once a 'Blue' sandy beach with dramatic cliffs, the beach has suffered recently from winter storm damage and has lost most of the beach, however the striking Blue Lagoon – once a slate quarry – is walking distance from the carpark/beach. The Blue Lagoon is very popular swimming and 'jumping' spot from the old quarry jetties. But please take care as every year people are air lifted off the quarry from jumping accidents!

One of Pembrokeshire's most beautiful beaches, Traethllyfn, lies just one mile north of Aberiddy and a further half mile coastal path walk brings you to Porthgain. Here you'll find 'The Shed' – an excellent fish restaurant, and a pub, 'The Sloop' which has a nice outside seating area.

Aberbach and Abermawr

Both are little known beaches. Abermawr is a large, impressive bay with a pebble bank created by a huge storm in 1859. At low tide the beach is sandy. Surfing can be good here and is never crowded but the strong currents can be hazardous. Abermawr beach is well signposted from the cross roads on the A487 about a mile N.E of Mathry. The road is narrow and parking is limited. There is a short path to the beach from the roadside.

Aberbach beach is a small beach next to Abermawr and is a 5 minute walk to get to it from the road or 10 minutes around the cliff path from Abermawr. Although mainly pebbles there is sand at low tide. If you follow the track up inland from the beach you will come to some great wood carvings that are fun for kids to spot – there are lots of different animals and things hidden in the trees and by the path. Takes about 10 minutes walk up from the beach. You will come out of the wooded walk by a cottage. If you fancy a refreshment stop, head to Melin Tregwynt for a look at the beautiful woven blankets and cushions and visit their fantastic café. To get to Melin Tregwynt walk by the cottage and turn left, follow this road all the way round and over a little bridge. You'll see the car park for Melin Tregwynt. You could always park your car here and walk to the beaches from here.

Cwm-yr-Eglwys

A petite, eye-catching cove popular with families. Overlooking the picturesque shingle and pebble beach are the remains of the 12th Century Church of St.Brynach's which was destroyed during a fierce storm in 1859. To find Cwm-yr-Eglwys follow the narrow, twisting road off the A487 just to the east of Dinas Cross. There is limited

parking in a private car park. Being at the northern base of Dinas Island, Cwm yr Eglwys is a great place to join the Pembrokeshire coastal path. From Cwm yr Eglwys, you can walk round Dinas Island to Pwllgwaelod (another beautiful Pembrokeshire cove) where you can enjoy a well-earned rest in The Old Sailors Pub and Restaurant before cutting back through the valley to Cwm yr Eglwys. The whole walk is just over 3 miles.

Activities

Walking the Coast Path and local area

St. Davids is surrounded by wonderful cliff walking with stunning views. A **North Pembrokeshire OS Map** is in the cottage. Please be sure to leave the map for the next guests to enjoy but by all means take it out and about with you during your stay.

Please Note: Unfortunately the **Coastal Bus Services** up and down the coast that used to pick up and drop off walkers (the Strumble Shuttle & Puffin Shuttle) aren't running this year. So you'll need to drive or arrange a booking with the Flecsi Bus.

Cycling

The OS map can help with local rides and the Sustrans No. 4 route will take you north and east along the coast from here. For longer rides do ask Sean who will be more than happy to point you in the right direction or even take you out on his favourite rides – with tea stops included! Culture

St. Davids Cathedral

Most visitors first view St David's Cathedral as they approach from the centre of the City, the first glimpses of this hidden building are when walking through the Bell

Tower and Cathedral gates, which invariably causes visitors to stop and stare, in order to take in the whole massive building and extensive grounds. Alongside the Bell tower is a great location to take photographs, but remember if you are lucky the Bell tower may be open and you can go in and see the team of Bell Ringers, Friday evening are practice nights and Sunday mornings are the regular times when you are guaranteed to hear them.

Adjacent to the bell tower are the main stone steps leading to the cathedral – known as "the thirty-nine steps" easy going down (not quite so easy coming back up). The area known as the Cathedral Close is really well maintained by a team of local grounds men, just walking through the Cathedral Close there are really interesting buildings, gardens and meadows etc to enjoy.

The Cathedral is normally open to visitors from about 8.40am until the end of Evening Prayer (or Choral Evensong), but the building may be closed at short notice for funerals and for other reasons. You can check the Detailed Service Lists on the main doors into the Cathedral.

The Bishops Palace

Now a ruin, the Bishop's Palace at St David's still retains signs of its former grandeur. Currently managed by CADW you can visit the ruins which are well worth an hour or so to look around.

Built during the 1300's the ruins are full of human heads carved from stone and there is a huge wheel window in the eastern gable which is well worth the visit alone. The whole palace ruin musters up a sense of how spectacular this building must have been during its heyday with huge banquets being held in the main hall and royalty and other well to do guest entering through the majestic porch. The Palace is open daily and there is an admission charge. Facilities include disabled access, baby changing facilities, toilets, a gift shop and exhibitions.

Dewis Acre / Erw Dewi - St Davids Community Garden

Just along from The Bishops Palace tucked behind the stone wall is this delightful gem of a community garden, run and managed entirely by volunteers. Do venture through the entrance in the stone wall and take time to enjoy the hard work of our local community. Fresh produce is also available during the summer months. https://www.facebook.com/dewisacre/

St. Non's Chapel and Well

Situated in a field above the Coastal Path are the ruins of St Non's Chapel- now barely more than foundations it does house a stone slab with a simple cross and

circle carved into it. The Chapel is believed to be the birthplace of St David some 1500 years ago and is built inside the site of a Neolithic stone circle. Strangely the building has been constructed with a north-south orientation as opposed to the traditional east-west layout of most religious buildings.

Some 500 yards from the Chapel at the top entrance to the field is St Non's Well. Believed to have healing powers like many medicinal wells in the area, it probably

has its roots in Celtic (Iron Age) times and was re-branded so to speak when Christian beliefs were becoming predominant in the area.

Oriel y Parc Gallery and Visitor Centre

Oriel y Parc includes a Visitor Centre, Artist in Residence Studio, a Discovery Room which hosts family friendly art and nature activities, a Tower which hosts local arts exhibitions and community run classes, and a café (great spot for lunch and breakfast), and not forgetting a shop to buy local crafts/souvenirs and other goodies. There is also a Class A Landscape Gallery, which was built to house works bequeathed to the people of Wales by Graham Sutherland. This is **free** entry.

Days out

Newport

Newport is an idyllic little town on Pembrokeshire's north coast. It's some 40/45 minutes from St. Davids. The Welsh name for Newport is Trefdraeth. Translated, this means 'town by the beach'. The beach in question is Newport Sands, a mile long, wide, flat, dune-backed beach. There are a number of good pubs in Newport including The Castle Inn, and The Golden Lion. They all provide food at lunchtime and in the evening. And a number of cafes including Tides, Blas at Fonlas and PWNC. There is also an excellent restaurant - Llys Meddyg www.llysmeddyg.com

Cilgerran Castle

Cilgerran in Pembrokeshire boasts a picturesque ruined castle overlooking the Tefi George which it was built along. The castle sits on a rocky promontory above the River Teifi. The original castle is believed to have been like many others, an earth and timber castle which was probably constructed in around 1100, this castle was eventually strengthened and improved, by the Earl of Pembroke the masonry which exists today is dated around 13th century. The castle is now a National Trust property, in the guardianship of Cadw: Welsh Historic Monuments Executive Agency.

The castle is largely a ruin, though two substantial towers remain which give an excellent idea of the scale of the building. The castle can be seen from several vantage points along the river. From the castle there are pleasant walks down to the River Teifi and into the village of Cilgerran.

Narbeth

Narberth is a small, lively and attractive town in the rural heart of Pembrokeshire. It's a lovely day out if the weather is not up to much. It's become the arts and crafts capital of Pembrokeshire and a very 'happening' place to be. The shops are all very

individual and sell some exquisite items ranging from fine art to fine food, with the world of fashion being supported by a number of shops and upmarket boutiques. In the middle of the High Street in Narberth is the Old Town Hall, an imposing structure with a double stairway leading up to the entrance. Surrounding the Old Town Hall are some fine old buildings, many of which now house interesting and unusual shops - as does the Old Town Hall itself.

Definitely worth a visit for lunch is **Ultracomdia**. It's a lively tapas bar with lots of Spanish meats, cheeses, and wines.
